

## Use of restricted CGF-data – confidentiality agreement for data access

### Data security classification

The CGF maintains data that can be sensitive and valuable for the Centre and our partners. All CGF-data is classified according to the one of the following categories; green, yellow, orange and red.

	Public data available to everybody.
Yellow	Data available to research institutions by request.
Orange	Data restricted for commercial reasons and only available after approval by data owner.
	Sensitive data restricted for unspecific reasons only available after approval from CGF.

### Purpose

With delivering of the data- in addition to the security classification; the purpose should be defined.

### Data protection and security

- The data or parts of the data may be subject to export control. Therefore, no access to persons with citizenship from the following countries is allowed: China, Iran, North Korea, Pakistan and Russia. This country list may be updated as new information arises from the Norwegian government.
- Data is also protected following the modernized act relating to national security (security act) that came into force on 01.01.2019.
- Norwegian data protection related (but not limited) to for example privacy, surveillance, tracking in public spaces, sound recording, transfer to third countries implements the General Data Protection Regulation (Regulation (EU) 2016/679) ('GDPR'). The Act and Regulation 0563/2018 on the Processing of Personal Data (in Norwegian here) contain certain specific national variations and additions to the GDPR.

I declare that I will take all reasonable, necessary, and appropriate steps to follow the regulations as described above related to the use of these data.
